

Food and Drink discounts

If your centre sells food or drink products, you can get a series of discounts on a range of items. You must have a Legend Staff Membership Number to redeem discounts. If you don't have one of these, please follow the instructions on the benefits homepage.

When you're at a centre, you can take advantage of the following discounts, where applicable:

- 30% off certain food items, including crisps, confectionary, ice cream and soft drinks.
- Polar Krush 50% off.
- All hot drinks are 75%

You can take advantage of these great discounts whether you're working at the centre or just visiting on a day off.

If your centre has vending machines that are managed by us, you can still get the 30% discount. However, you will need to take the item from the store area, scan it, apply the discount and pay for it in that way - the vending machines can't process your discount.

Please be aware, there is no discount on alcoholic drinks if offered at your centre.

Where a centre's catering is provided by a 3rd party, the discounts do not apply.

To process the discounts, please check the Processing Guide on the main benefits page.

Please note: discounts are only available for employees and immediate family. If an employee is purchasing food or drink for others (not immediate family) they must purchase and pay for their products separately utilising the discount – any other people's items can then be processed without using the discount facility.
